## **Coloring For Adults: A Childhood Pastime Turned Therapeutic Hobby**

What has long been thought of a favorite childhood pastime is now becoming an increasingly popular form of relaxation and creativity for adults as well. The past several years have brought many new and exciting coloring options to the creative market for adults, including coloring books with sophisticated themes and incredible geometric designs. There is something about coloring that brings about a sense of relaxation, contentment and wellness.

For most people who enjoy coloring, they are able to focus so intently and get lost in the image that they are immediately transformed and brought to a place that is at times rich and lush with creativity and at others innocent and reminiscent of simpler childhood days. Coloring takes you out of your burdened, adult mind for a brief amount of time and allows you to focus on creativity and beauty.
